

Tentative **OUTDOOR DISCOVERY ITINERARY**

- Day 1 Arrive, move into cabins, ETC orientation, review trip details and take swim test. Enjoy the fun of opening campfire.
- Day 2 A day of team building on our low ropes course.
- Day 3 A day hike onto the Appalachian Trail to investigate the geology, followed by a night of astronomy sleeping out under the stars on the upper field.
- Day 4 Board our pontoon boat and explore the lake, studying limnology and plotting your results.
- Day 5 Explore the ponds, swamp, marsh and streams of camp, cataloging our aquatic wildlife.
- Day 6 Take a break from science and enjoy a traditional day at camp – archery, riflery and canoeing . Complete trip plaque and closing campfire in the evening.
- Day 7 Take home great friendships, memories and photos.
