

## **Fairview Lake YMCA Camps**

### **Environmental Education Suggested Packing List!**

The following is suggested for a **ONE NIGHT** stay at camp. Please adjust accordingly to reflect the length of your trip.

Check the weather for Newton, NJ before you pack. We will be both inside and outside, enjoying all aspects of our beautiful camp! Camp can be rough on items, and we'd hate to see your expensive clothing get ruined! Dress comfortably to play inside and out.

The cabins you are staying in are heated, and have showers, flush toilets and electricity.

Meals will be enjoyed in the camp dining hall. Please contact your school to discuss dietary needs.

Please follow your school's policy on cellphones and other electronic devices. Service is very limited at camp.

Your school may require additional items for your trip (notebook, journal, pens, etc) please double check any information they send home to you!
